1. Module Questions:

1.1) I feel that the module was intellectually stimulating.

1.2) I feel that the module was well-organized and ran smoothly.

1.3) I was comfortable with the amount of material covered.

1.4) I was comfortable with the level of prior knowledge assumed of me.

1.5) I understood at the beginning of the module what the assessment criteria would be.

1.6) I found that the resources I needed for the module were easily accessible.

1.7) I received sufficient feedback during the module to have a sense of what I understood and what I still needed to work on.

1.8) The information I received about the module provided an accurate description of what was expected of me.

1.9) I feel that this was very good module overall.
2. Lecturer(s) Questions:

2.1) I feel that the teaching staff explained the material clearly.

2.2) I feel that the teaching staff made the subject interesting.

2.3) In my experience the teaching staff responded promptly to my queries about the module.

2.4) I feel that the teaching staff did a very good job overall.

3. Laboratory Questions:

3.1) I feel that the description of the work to be done in the laboratory sessions was well-structured and clear.

3.2) I found that the equipment used in the laboratory sessions worked reliably.

3.3) I was comfortable with the level of technical difficulty of the laboratory sessions.

3.4) I feel that the demonstrators in the laboratory sessions provided appropriate and useful assistance.

3.5) I felt safe during the laboratory sessions and I feel I knew what to do in case of emergency.
1. Module Questions:

1.10) Comments relating to the module.

- Although it was satisfactory to understand many concepts, the amount of work in the assignments was higher than expected. The general feeling is that we need to spend about twice the time it is initially estimated in the specification, which impact somehow the dedication for other modules. It will be really helpful to have at least 2 hours of lectures per week. This may help reducing the self-working time for the assignments.

- Another excellent module run by Niranjan, genuinely value-adding. The teaching style ensures students understand the material through the applied assessments. It is a real shame that more modules are not taught like this.

- Maybe it should have more lectures one week

- Really great module - very interesting

2. Lecturer(s) Questions:

2.5) Comments relating to the teaching staff.

- He is good

- great lecturer, nothing to say!

3. Laboratory Questions:

3.6) Comments relating to the laboratory sessions.

- The laboratory session clashed with another lecture so it wasn't that useful in contrast to other lab session held with the same lecturer.

- The laboratory sessions need change the slot to a more suitable time

- the course works are well structured, but the professor was rarely present in the lab, so we didn't have much help on that
