This tutorial session is designed to provide you with hands-on practical experience to clean data. You can learn about cleaning process in here:

Data Cleaning Instructions

In order to carry out this exercise three datasets are required.

- Datasets are genuine,
- You need to access them directly

- Dataset 1 – Department for Environment, Food & Rural Affair
  https://data.gov.uk/dataset/agricultural_market_reports
- Dataset 2 – UK GP Earnings
  https://data.gov.uk/dataset/gp_earnings_and_expenses
