Labs

• Released (officially) each week at end of previous week
• You should work on them yourself in your own time
• You should either email your results to Bernard/Sarah
Or
• Come to lab with what you have done, finish it and get the work marked at the end of the lab
• I will talk quickly through slides – assuming you have studied them
• We will answer questions and give help in the lab
• The end of the Lab is the deadline for marking – lab results will be issued shortly after
